

Damnells, Golden Days

On your mark get ready set
And run away for good
There's a bold unbridled light
Where my soul once stood

Fall apart confetti, come on
Cry right on my sleeve
I am just a ghost of hearts
that break bittersweet

Am I in tune?
Yeah, I can't hear much
but the melody coming from you
Baby please don't rush
Keep the tempo slow and ooh
Let me hear the words you say
Let's go and get tangled in chains of golden days

Counting down T minus 10, 9
Wait i still believe
There's a distance in your eyes
Only mine can see

Leave the ground behind us
I'll be floating round your lips
I am just a host of arms
Holding one fool wish

Am I in tune?
Yeah, I can't hear much
but the melody coming from you
Baby please don't rush
Keep the tempo slow and ooh
Let me hear the words you say
Let's go and get tangled in chains of golden days

Am I in tune?
Yeah, I can't hear much
but the melody coming from you
Baby please don't rush
Keep the tempo slow and ooh
Let me hear the words you say
Let's go and get tangled in chains of golden days

Am I in tune?
Yeah, I can't hear much
but the melody coming from you
Baby please don't rush
Keep the tempo slow and ooh
Let me hear the words you say
Let's go and get tangled in chains of golden days
Let's go and get tangled in chains of golden days
Let's go and get tangled in chains of golden days
Let's go and get tangled in chains of golden days
Let's go and get tangled in chains of golden days
