

# Damnells, Sleepsinging

It's up to you now  
This place is filling up with smoke  
You won't let me breathe in or out  
So I resolve to cut my own throat

And I will never change  
Not for anyone  
Sometimes I wish  
I could leave myself alone  
I could leave myself alone

Each day you bring me closer  
to going nowhere  
Like sleep walking I'm sleepsinging, yeah  
Someday you're gonna wish  
You'd taken better care of me  
Like sleep walking I'm sleepsinging, yeah

I have been such a fool for you  
I put my faith in things you could never do  
Now I'm chasing myself to catch up with you  
And you mixed every drink of lies  
with the truth

I will never change no  
Will you ever change no
