

Damnells, What You Get

Say what you wanna say but it don't matter
Do what you wanna do but we don't care
You haven't anything that we would bother
You haven't anything that we would dare

That's what you get for being afraid
That's what you get for staying away

Say what you wanna say but it don't matter
Do what you wanna do but we don't care
You haven't anything that we would bother
You haven't anything that we would dare

That's what you get for being afraid
That's what you get for staying away
Go on regret do it anyway
That's what you get for being afraid
