

Damone, Rock Star

You have a hold of me inside
I dream about you every night
You knew just how to show you cared
And now I miss that you're not there

Please say
Please don't say
Cause I want you here rock star
So I fall in love

We talked just now while on the phone
You laughed when I said sodifrah
You held when I said please hold on
And now I feel like we're not gone

Please say
Please don't say
Please say
Please don't say
Cause I want you here rock star
So I fall in love
I didn't mean to hurt you
But I had to move on

Woah. Woaaaah. Woah. Woahhhh...

I'm not your star
I'm not your star
I'm not your star
