

Dan Bern, Closer To You

Please give me notice
So I can buy a ticket for a train
A train I've been hearing
Over and over again and again

Tonight it seems you're sleepy
So there ain't nothing else to do
'Cept drink and listen to Miles Davis
Down in the Bakerloo

Closer to you, closer to you

Baby let's stop for gas
You can be the leader of the pack
Spain can wait 'til tomorrow
Spain always has

Go ahead try to go further
I'll push your hands away

Don't be worried 'bout
Physically overpowering me today

Closer to you, closer to you

I seen what happens to the boys who love you
Gonna move carefully, real real carefully

I sign for my brothers
Now when I write my name
Shaquille O'Neal don't show up
Drunk for a Laker game

God is down in the mailroom
Sorting what gets sent above
They finally proved scientifically
All you need is love

Closer to you, closer to you
