

# Dan Hill, I've Been Alone

And I've been along - most of my life  
I guess it hurt me

But never have I felt so less alone  
I beg you darling  
Don't desert me

And some believe in love  
And some believe it's misplaced feelings  
And me - I always change my mind  
So many words have lost all meaning

Chorus:  
And still you come for me  
Your eyes too blurred by love  
To know just what you see

You make me weak  
You make me strong  
It's all the same  
We share a breath of happiness  
We share the pain  
Always changing

And I give to you  
All I am - all I will be  
Life goes by so fast  
Together let's grown slowly

Repeat chorus

And I've been alone - most of my life
