

# Dance Gavin Dance, Reprogramming Mental Pre

I drink the blood of the fortunate ones  
Collapsing their teeth right on top of their tongues  
Innocent children are asking for blow  
All of my sources say you oughta know

Take out the stitches  
Rip off the clothes  
Green light is on  
Tell me what you know  
Run for your lives  
Judas survived  
Christ version anti  
Open the blinds  
People outside  
Ready to die  
Is it July?  
Take out the stitches  
Back off the bitches  
Me and my friends  
Who has the time?  
Been in line since yesterday

Alone in this place, and I feel comfortable  
I seem to always hold on for too long  
I always hold on too long [x2]

When we are, it complicates and isolates  
Between fear and bravery, is it inside of me?  
When we are, it complicates and isolates  
Between fear and bravery, is it inside of me?

Run for your lives  
Judas survived  
Christ version anti [x3]  
Raping and drinking is fine  
Blow my face off  
Blow me off  
Back off the bitches  
Pull out their stitches  
Needless to say, I'm blank

We are all freaks, living in recession  
If we don't move on, I'll forever be stuck

When we are, it complicates and isolates  
Between fear and bravery, is it inside of me?  
When we are, it complicates and isolates  
Between fear and bravery, is it inside of me?  
When we are, it complicates and isolates  
Between fear and bravery, is it inside of me?
