

# Dance Hall Crashers, Shelley

Why are you listening to all the things they tell you everyday?  
Why are you listening, what happened to your own mind anyway?  
Why are you listening, to their advice on what to watch and do?  
Why are you listening, has your mind been overrun - what do I do?

I don't know how they pulled you fast and buried all the trace of the past  
I don't know how you left so fast - I really hope that this won't last

Oh Shelley  
Oh Shelley  
Oh Shelley  
Oh Shelley listen to me

What are you doing? It's been too long, I never even seen you  
What are you doing? You're a different girl but I don't know who  
What are you doing? Fall asleep and disappear for days  
What are you doing? Come back flying in a total haze

I don't know how they pulled you fast and buried all the trace of the past  
I don't know how you left so fast - I really hope that this won't last

Oh Shelley  
Oh Shelley  
Oh Shelley  
Oh Shelley listen to me

What are you thinking? I suspect you're losing it for good  
What are you thinking? Promise I would save you if I could  
What are you thinking? I probably don't even wanna know  
What are you thinking? Please just say goodbye before you go

Oh Shelley  
Oh Shelley  
Oh Shelley  
Oh Shelley listen to me
