Dance Hall Crashers, Truth Hurts

Telling me what to do with my life
Telling me that I'm no good
Telling me that you are the very best..
You're driving me up the wall
At one time you were on top
You thought you were a hot shot
You never thought the ride would stop
Now the roller coaster's over
Your only pal is your dog Rover
So much for your stay at the top

Talking about your lucky big deals
Demanding to top the bill
Boring, it's all so boring
I'm so glad the spotlights gone
At one time you were on top
You thought you were a hot shot
You never thought the ride would stop
Now the roller coaster's over
Your only pal is your dog Rover
So much for your stay at the top

Now that the spotlight is gone Running towards the bandwagon Claiming everything is fine You can't hide from truth At one time you were on top You thought you were a hot shot You never thought the ride would stop Now the roller coaster's over Your only pal is your dog Rover So much for your stay at the top
