

# Danger Radio, Keep It Up

You, you keep it bottled inside  
What may seem like unreasonable tension  
When delivered will be worth all your time  
And you got what it takes  
So don't you dare to break  
She may endure all your lies

'Cause along comes a time inside every man's life  
When the things that you preach get shot down  
And you cross all the lines.

Keep it up, keep it up  
Finish me with a touch  
'Cause I got no regrets, no regrets, I'm a lush  
And I found that it's better to live  
With incentive to give  
With incentive to give, that's enough  
[x2]

You, take actions fast and in time  
Submitting to a pulse  
A rhythm when correctly done  
Sends chills through his spine

Now he's begging,  
Tries defending, what he knows  
Can be a monumental point in her life  
Note to sender, don't you beg her  
It's times like this when may not quite appear right

Keep it up, keep it up  
Finish me with a touch  
'Cause I got no regrets, no regrets, I'm a lush  
And I found that it's better to live  
With incentive to give  
With incentive to give, that's enough  
[x4]
