

# Danger Radio, Party Foul

Please carry me  
I've got a terrible disease  
Taking a chance to make it  
Don't look, just keep cool  
'Cause I saw you standing over there  
Your charismatic little glare  
And keeps me company  
'Cause I know she's wanting me,  
But I don't think I'll take it

Shamelessly,  
She walks to me,  
And says to me,  
And begs to me,  
Carelessly, so drawn to me,  
So I say this time we're going to get it right,  
This time we're going to dance all night

It's looking like there might be something here tonight,  
But we keep it secret  
As we fall into pieces,  
Baby, you try so hard to get in touch with,  
You keep staring you can't function  
Keep looking around, looking around

Just let the music take control,  
Don't fight these feelings  
We both know you're not that type,  
We're at the club let's have some fun  
And if here the end I won  
Well then another day will come

Shamelessly,  
She walks to me,  
And says to me,  
And begs to me,  
Carelessly, so drawn to me,  
So I say this time,  
We're going to get it right, this time,  
We're going to dance all night

Don't you know that we are the ones  
That keep this party going around until the morning?  
Don't look back it's alright, this is not a test  
We are only getting started, dancing around 'til the  
Morning where's the party tonight... tonight
