

# Danger To The System, Take Me Away

as i sing these songs  
and i write these words  
take my hand so i don't say too much  
take this song, and take these words  
away, take it away

i don't know what will come  
but i do know now  
is some way and some how we will fly  
we will...

as i scream these chants  
and i play these chords  
keep me warm so i don't get too cold  
and take me away, and take this day  
away, take it away

i don't know what will come  
but i do know now  
is some way and some how we will fly  
we will...

and i don't know much but i know  
this will happen it will, we will fly

i don't know what will come  
but i do know now  
is some way and some how we will fly  
we will...
