

# Daniel Cirera, She Rules The School

It's a different kind of love  
With you by my side  
It's a different kind of life  
Cause we were fucking all the time  
And I'm never feeling bored  
Even though you're far away  
You make me a believer  
With the words that you say

Cause she rules the the school  
My babe she rules the school  
Cause she rules the school

And when I'm feeling down  
She brings it up  
She tells me that she likes me  
And that she never stops  
And then she gives me head  
She does it without shame  
She tells me that she likes it  
And could do it over and over again

Cause she rules the the school  
My babe she rules the school  
Cause she rules the school

It's a different kind of love  
With you by my side  
It's a different kind of life  
Cause we were fucking all the time  
And I'm never feeling bored  
Even though you're far away  
You make me a believer  
With the words that you say

Cause she rules the the school  
My babe she rules the school  
Cause she rules the school

Come on up  
And stay a little longer!
