

# Daniel Johnston, Love Wheel

walk into a crowded room  
i see you there and I'm hypnotized  
you turn and look at me  
love wheel spinnin' round round round round

cant you see baby I'm just crazy for you  
show me your love like the heaven above will do

your the one so attractively built  
oooh the way you make me feel  
I look into your healin' eyes  
love wheel spinnin' round round round round

cant you see baby I'm just crazy for you  
show me your love like the heaven above will do

comes the time to rock the night away  
holy matrimony some day

come to me from out the blue  
just like a dream come true  
this has been my favorite wish  
love wheel spinnin' round round round round

cant you see baby im just crazy for you  
show me your love like the heaven will do

I take you now into my arms  
feel the pleasure of all your charm  
my head is dizzy and my knees are weak  
love wheel spinnin round round round round round round round round ooh
