

Daniel, Julie

She came to me with the summer
whispering gently
hello'.

She looked like she was a star fallen down from the sky.
I can remember her kisses
we didn't say a word.

Time was so precious to me and to my Julie.

Julie

Julie

my happiness was just a moment of time.

Summer is time for all lovers

beautiful month called July.

When you can feel love in the air

there by the seaside.

It was too good to last longer like any good thing in life.

Night passed so quickly for me and for my Julie.

Julie

Julie

my happiness was just a moment of time.

Walking alone in the moonlight

hearing the wind by the sea.

I am not sure was it real or just a dream.

Numbering my lonely hours

waiting for July ta cams.

Gazin' at flickering stars to find my Julie

Julie

Julie.

Julie

Julie

my happiness was just a moment of time.

Oh

my Julie.
