[Intro: D.K.]

Someone took the key to your heart
Someone took the key to your

[Aubrey:]

Could've swore I had it right here with me
Susy told me no one else could take it away (away)
So maybe I just misplaced it
Check to were it could be
But I'm running out of possibilities

[Shannon:]

See now me and him are having all these problems
Retrace my steps to see if I caused them
There's something hes keeping from me
What could it be (ohhh)

[Danity Kane: Shannon & Aubrey Add Libs]

Please don't tell me
Someone took the key to your heart
Right from the bottom of me
Tearin us apart
I got you just where you wanted
How could you do it baby
Into your heart

[Dawn:]

Kinda chilly out here on the other side
When did I turn my back long enough for her to take my place
Must of been a mix up showin in the same mistake
But if not when I see her they might lock me away

[D. Woods:]

Cause now me and him are having all these problems
It don't take a genius to try to solve them
There's someone hes keeping from me (ohhhh)
Who could she be?

[Danity Kane: Dawn & D. Woods Add Libs]

Please don't tell me
Someone took the key to your heart (I can't take it)
Right form the bottom of me
Tearin us apart
I got you just where I wanted (don't you let them in noo)
Into your heart

[Aundrea:]

Iv called it in
I made my plan
I hope they find it right away
The missing piece means everything
What else could it be?

[Danity Kane: Aundrea & Dawn Add Libs]

Please don't tell me
Someone took the key to your heart
Right from the bottom of me
Tearin us apart (tearin us apart)
I got you just where I wanted
Into your heat
