

# Dannii Minogue, I've Been Waiting For You

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you

Place you on a pedestal  
My discovery, I pray  
Angel with a dirty face  
And a natural love  
All my senses sway

Let me find you  
Let me take you  
Let me show you

This love is the only one  
That never hurts  
I pray  
Somebody to shelter me  
To follow me  
Like a non-stop game

Let me find you  
Let me take you  
Let me show you

All my patience  
All my trouble  
All my passion

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you

Diving in the mystery  
I wet my feet  
I pray  
Your kingdom enchants me  
Like a memory  
And your eyes will sing

Let me find you  
Let me take you  
Let me show you

All my patience  
All my trouble  
All my passion

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you

Let me find you  
Let me take you  
Let me show you

Let me find you  
Let me take you  
Let me show you

Let me take you

Let me take you

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you
