

# Dannii Minogue, Sunrise

Girls and boys are checkin each other  
Steppin up getting harder n faster  
(From the hip, going down down)  
Inside beats drop, lettin it go  
Outside heads get ready to blo-w  
(Kickin off, feel it now)

You got me going like this  
You got me goin like that  
Cos were takin it in  
And we aint givin it back

We got nothin to lose  
Were getting outta control  
Because its somethin like this  
Ya never felt before

Chorus:

Ooh, gonna take it right through to sunrise  
(Till the morning light)  
Ooh, gonna take it right through to sunrise  
(Keep it up all night)  
Break it hard now get it on  
Keepin it up, till tomorrow comes  
Ooh, gonna take it right through to sunrise

Uptown words out, spreadin like fire  
(On the streets, in the bars & the underground)  
Down town, they cant get any hotter  
(Smoke it in, breathe it out, shi-sha)

Im movin out to the left  
Getting off on the right  
And if were breakin ya in  
Well take it all through the night

The mood is pickin us up  
And were all catchin the wave  
Dont wanna leave it behind  
Were goin all the way

(Chorus)
