

Dannii Minogue, You Wont Forget About Me

Verse 1

Our first and last summer together
We shared the passion till the end
I found a friend I will remember
I'll never feel the same again (now that it's over)

Living the dream
I'm Breathing in deep
let it go (now that it's over)
It's good to know, yeah it's good to know that

Chorus

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

Verse 2

I hear the music over and over
The memories play on and on
I'm living this dream
I'm breathing in deep
Then I hear you say
As you drift away
That it's good to know, it's good to know that

Chorus

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

Verse 3

I'm living the dream
When I'm breathing in deep
Want it all on repeat
Play it on and on
Cos' it's good to know that

Chorus

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this
As long you live

You won't forget about me
As long as you live, as long as you live
You won't forget about me
I promise you this

As long you live
