

Danny Keith, Keep on Music

Mooving up together
so don't forget that never i will give you my soul
you let me keep the music
fall in love forever but you and I together I will kiss you my darlin'
but let me keep on music.
Listen me I dream you
you carry seems to touch you
while I present my heart
but let me keep on music
Everything you like you,
tune every word you bring me
I will leave you my body
but let me keep on music
Every night tell me
if you're to feel right
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
Mooving up together
so don't forget that never I will give you my soul
you let me keep on music
fall in love forever but you and I together I will kiss you my darlin'
but let me keep on music
Listen me I dream you
you carry seems to touch you
while I present my heart
but let me keep on music
Everything you like it
than every word you bring me
I will leave you my body
but let me keep on music
Every night tell me
if you're to feel right
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
Sing forever you feel in paradise
so you will dance forever
you can take my style
