

Danzel, Undercover

Girl

I've been dying

To see your body in the real

Its just to sexy to conceal

I go crazy

I feel your vibe

Every time I look at you

Wanna take you for a ride

Into the shadows

Where no-one knows us

We can deal just what we dare

Have a secret love affair

You send a message

That I like

Let me take you undercover

Let me blow your mind tonight

Undercover! Won't you come with me

Undercover! Take your love for me to see

Undercover ! Thats what you should be

Undercover! Undercover with me

Girl

Eyes are on ya

Every gangster on the floor

Wants to get you at the door

But I can take em

And I will

Cause my love has got a license

Got a license to kill

Into the shadows

Where no-one knows us

[***] to my underworld

I will blow your covered girl

You speak a language

I understand

Let me take you undercover

Be your secret lover man

Undercover! Won't you come with me

Undercover! Take your love for me to see

Undercover ! Thats what you should be

Undercover! Undercover with me

Got the keep on moving

Make you feel alright
