

# Danzig, Belly Of The Beast

Did my time among the creeps did my time among the thieves  
Did my time around the scores did my time among the whores  
Did my time among the blessed walked among the living dead  
Searching up and down this world doing things you've never heard

Down in the belly of the beast I lie all I save is my pain

Did my time among the lost paying such a heavy cost  
Did my time among the cruel laying with the broken fools  
Did my time among the slaves walked around their waiting graves  
Did my time among the lies watching as they slowly die

Down in the belly of the beast I lie all I save is my pain

Did my time among the strong some are here and some are gone  
Did my time among the cursed praying that my brain would burst  
Did my time among the slaves walked upon their living graves  
Did my time among the lies watching as they slowly die

Down in the belly of the beast I lie  
All I save is my pain
