

Danzig, Belly Of The Beast

Did my time among the creeps did my time among the thieves
Did my time around the scores did my time among the whores
Did my time among the blessed walked among the living dead
Searching up and down this world doing things you've never heard

Down in the belly of the beast I lie all I save is my pain

Did my time among the lost paying such a heavy cost
Did my time among the cruel laying with the broken fools
Did my time among the slaves walked around their waiting graves
Did my time among the lies watching as they slowly die

Down in the belly of the beast I lie all I save is my pain

Did my time among the strong some are here and some are gone
Did my time among the cursed praying that my brain would burst
Did my time among the slaves walked upon their living graves
Did my time among the lies watching as they slowly die

Down in the belly of the beast I lie
All I save is my pain
