

Danzig, Five Finger Crawl

You leave me cold
You leave me cold

Five fingers crawl
Around the room
The more you want
It seals your doom
The more they take
Extend your vein
Five fingers crawl
And ends the game

You leave me cold
Couldn't pay the price
You leave me cold
Cold as the

Some have to have
Some like to bleed
The more they take
The more you need

Some have to have
Some like to bleed
The more they take
The more you need

You leave me cold
Couldn't pay the price
You leave me cold
Cold as the night

You leave me cold
You leave me cold
You leave me cold
You leave me cold
You leave me cold
You leave me cold
You leave me cold
