

Danzig, I'm The One

I was born in the dirt
I never had no home
And the places I've lived
You don't wanna know

But if you wanna hear evil
Just come a little bit close

I was a snake-eyed boy
And at the age of five
I made love to the howl of the wolves
With a dark-haired girl

So if you wanna hear evil
Come a little bit close

She whispered in my ear
Little boy you're the one
Set the world to rights
Or make it tremble in fear

Do it one more time
'Cause you're the one
You're the one, you're the one
You're the one, you're the one
You're the one
Yeah
You're the one
Little boy
You're the one
Do it one more time

She said the path you walk
Gonna be hard one to tread
'Cause the night is your only love
Lots of girls going to be hurt
Said it's part of your fate
'Cause you're the one, you're the one

And now I know my place
In this life I ride
And I know the things I feel
Are burning deep inside

So if you wanna meet evil
Come a little bit close

'Cause I'm the one
I'm the one
