

# Danzig, Stalker Song

No one knows my name  
Where I come from  
No one sees my face  
Sees me coming  
You can never hide  
If I want you  
You can't even try  
Keep from crying

No one sees my face  
Sees my pain  
No one can see my shape  
In the shadows  
You can feel the dark  
When it's stalking  
I can slip right in whenever I want you

I'm coming in your home  
I wish you could  
I'm coming in your hole  
I wish you would
