

DARIA, Truth

If you want it
I can be honest
Should I tell you the truth
Or somethin' better
Or we could live the lie forever?

Don't look down
Just come and put your arms around
And sing to me, I like that sound
Like that sound
When you sing to me

Hold me now
And love me like there's no way out
If you can prove it, show me how
Show me how
What lies in between?

We're gonna live the good life every day
No matter what the cynics say
Some lies, they're made to keep our feelings safe
Sometimes the lie's the only way

If you want it
I can be honest
Should I tell you the truth
Or somethin' better
Or we could live the lie forever?

Don't look down
Just come and say it all out loud
And speak to me, I like that sound
Like that sound
When you speak to me

We're gonna live the good life every day
No matter what the cynics say
Some lies, they're made to keep our feelings safe
Sometimes the lie's the only way

If you want it
I can be honest
Should I tell you the truth
Or somethin' better
Or we could live the lie forever?

If you want it
I can be honest
Should I tell you the truth
Or somethin' better
Or we could live the lie forever?

Truth (truth)
Or somethin' better?
Truth (truth)
Or somethin' better?
Truth (truth)
Or somethin' better
Somethin' beautiful?

If you want it
I can be honest
Should I tell you the truth
Or somethin' better

Or we could live the lie forever?

If you want it
I'll make you a promise
Should I give you my word
And never break it
Or would you rather just get naked?
