

# Darin, Breathing Your Love (featuring Kat DeLuna)

Baby you, is the diamond that lasts forever  
And I just can't take a single step without you  
Baby to you, I'll always be a faithful lover  
'Cause my heart can't make a single beat without you

You make me fly  
You get me high  
You turn my world to such a better place  
Your crazy touch  
The sweetest rush  
Is something that saved my life

I wanna spend my nights and days between your arms  
Everyday breathing your love  
And even in my dreams I wanna be kissing your lips  
Baby breathing your love

Breathing your love (love) love (love) love (love)  
Baby breathing your love (love) love (love) love (love) x2

Baby boo, only you can make me recover  
The lost parts of me I thought they'd gone a long time ago  
With you, life runs like the best love letter  
Was just an empty soul until you step into my show

You make me fly  
You get me high  
You turn my world to such a better place  
Your crazy touch  
The sweetest rush  
Is something that saved my life

I wanna spend my nights and days between your arms  
Everyday breathing your love  
And even in my dreams I wanna be kissing your lips  
Baby breathing your love

I wanna have that craz love  
Wanna run it in my blood  
Want it taking over me  
Over me, over me, yeah

I wanna spend my nights and days between your arms  
Everyday breathing your love  
And even in my dreams I wanna be kissing your lips  
Baby breathing your love

I wanna spend my nights and days between your arms  
Everyday breathing your love  
And even in my dreams I wanna be kissing your lips
