

# Darius, Love To Love

You really got me babe  
You got my struck  
I'm hit by lightening  
Got me strung out on a limb  
And I love to think that I can't fight it  
You rock like a hurricane  
I've been blown by an earthquake  
Got me feelin' funk' baby  
Jumpin' pumpin' lady  
Crashing like a tidal wave  
Think 'bout a greener kinda grass  
Take a trip to me side of the tracks  
I've never lock you down  
Or fence you round  
Cause I feel you loud  
And I love to love  
To love to love to love

You know I'd really hate to  
See you leave  
But I'd really love to watch you go  
So if you're thinking about grabbing  
Your keys  
Then I think you better let me know  
Cause baby I've been reading your kiss  
And there ain't no fire without smoke  
When I see the way you throw  
Those hips  
Then I know I gotta take you home  
I gotta love you babe  
Cause I love to love to love to  
Love to love to love to love

You really shook me babe  
Got me cooked and hooked  
Like a junkie  
You're hot like a rock star  
I've been cooked and shot,  
Bit I wannabe  
You kiss like a butterfly  
Sting like a honey bee  
You got seven wonders  
And I'm going under  
Cause you throw me off my feet  
Gotta have your number  
On my phone  
Can't have you going home alone  
Or fence round  
Cos I feel loud  
And I love to love to love  
To love to love to love

You know I'd really hate to  
See you leave  
But I'd really love to watch you go  
So if you're thinking about grabbing  
Your keys  
Then I think you better let me know  
Cause baby I've been reading your kiss  
And there ain't no fire without smoke  
When I see the way you throw  
Those hips  
Then I know I gotta take you home  
I gotta love you babe

Cause I love to love to love to  
Love to love to love to love

You know I'd really hate to  
See you leave  
But I'd really love to watch you go  
So if you're thinking about grabbing  
Your keys  
Then I think you better let me know  
Cause baby I've been reading your kiss  
And there ain't no fire without smoke  
When I see the way you throw  
Those hips  
Then I know I gotta take you home  
I gotta love you babe  
Cause I love to love to love to  
Love to love to love to love
