

# Darlene Zschech, Everything About You

You chased me  
I caught you  
so glad we found each other  
We whispered forever  
to share our lives together  
to watch our dreams unfold

## \*Chorus

And I love everything about you  
everything you are  
You'd catch a falling star  
if I asked you  
And I couldn't live a single day without you  
You hold me in your arms  
and once again, I know  
that I'm the only one for you

The way you laugh, the way we dance  
the way you hold my hand  
the way you give, the way you kiss  
the way you look at me  
you make life beautiful

## \*Repeat chorus

## \*bridge

Oh, I love the light that shines in your eyes  
when you talk about our girls  
and love the way you smile when they walk  
into a room  
Oh, I love how you care about brokenness  
how injustice moves your heart enough  
to make a change  
You give all you are  
everyday

## \*Repeat chorus

I love everything about you  
You hold me in your arms  
and once again I know  
that I'm the only one for you  
the only one for you  
the love of my life  
So glad I found you  
yeah...
