

# Darren Hayes, Heart Attack

Ive cracked  
My tempers spat  
Hot coal, fire and acid jack  
Ive been used I feel abused  
Something youve done has lit my fuse  
And I take my theories back  
Maybe Karma aint all that  
Coz you do whatever you please  
Everybody else is left to bleed

Youre a heart attack  
Your heart is black  
Its whack  
Your mind is jacked  
How did anybody ever get like that?  
Youre a heart attack  
You stabbed me in the back  
If you pull your punches jack  
Im taking everything back  
You hit me harder than a heart attack

We used to stick together  
You and me stay that way forever  
But now to my surprise  
Youve become what we despised  
Whats that theyre telling me?  
Sleeping with the enemy!  
Going down on dirty sheets  
Didnt nobody tell you how to be discreet?

Youre a heart attack  
And your heart is black  
Its whack  
Youre mind is stacked  
Tell me how did anybody ever get like that?  
Youre a heart attack  
You stabbed me in the back  
If you pull your punches jack  
Im taking everything back  
You hit me harder than a heart attack

Youre dancing while Im dying Laughing while Im crying  
Denying the mess you made  
Your true colors are clashing  
This airplane is crashing  
Its smashing  
Were you even there?  
Coz I dont think you care  
About anyone but yourself now

Go run but you cant hide  
Actions they cant be denied  
Once thing keeps buggin me  
Tell me how you sleep at night  
I need to set things right  
Shake things up  
Modify  
Change plans and break the rules  
Play the game like you do fool

Youre a heart attack  
And your heart is black  
Its whack  
Youre mind is stacked

Tell me how did anybody ever get like that?  
You're a heart attack  
You stabbed me in the back  
If you pull your punches jack  
I'm taking everything back  
You hit me harder than a heart attack
