

# Darryl Worley, Family Tree

Dancing in the living room, cutting up a rug  
Dancing with the baby looks more like a hug  
Living in a house made of sawmill wood  
Rollover Beethoven never sounded so good  
Chorus:

So come on baby, baby let's go  
Where we get the money honey I don't know  
But one more baby's alright by me  
We'll just add another limb to the family tree  
Well raising up babies is our new sport  
You're one day late and I'm a dollar short  
Now maybe it was planned and maybe it was a goof  
But a cat's just gotta dance on a hot tin roof

Chorus:

Yeah come on baby, baby let's go  
Where we get the money honey I don't know  
But one more baby's alright by me  
We'll just add another limb to the family tree  
Well the lawnmower's broke and the tax is due  
And if I find another tick I'm gonna come unglued  
We got hand-me down clothes and hand-me down shoes  
We got the big belly momma-here-we-go-again blues

Chorus:

Hey hey baby, baby let's go  
Where we get the money honey I don't know  
But one more baby's alright by me  
We'll just add another limb to the family tree  
Baby, whoooooahh  
Where we get the money, hell I don't know  
One more baby's alright by me  
It's alright  
It's alright now baby  
We'll just add another limb to the family tree  
Well just add another limb baby  
We'll just add another limb to the family tree
