

# Daryl Hall, I've Finally Seen The Light

We spent our time  
Looking for signs that light the way to love  
The choice to be free  
Always open to me  
What was I thinkin' of ?  
Living in a fools paradise  
Looking everywhere but in your eyes  
Maybe I've been high lookin' low  
But it's right here my dear, my heart says so

It's heaven around you  
I've finally seen the light  
I can't live without you  
I've finally seen the light

Others have tried to get deep inside and make me understand  
Hinding from me  
All the others could see the boy become a man  
Tryin' for this paradise  
Why'd it take so long to realise  
Why was I the last one to know  
It's right here my dear, my heart says so

It's heaven around you  
I've finally seen the light  
I can't live without you  
I've finally seen the light  
It's right before me  
I've finally seen the light  
Like everyone told me  
I've finally seen the light

Reachin' for this paradise  
Why'd it take so long to realise  
Why was I the last one to know  
That love is here my dear, my heart says so
