

Daryl Hall & John Oates, Don't Change

I turned around and you were standing there
More than a little high
More than a little crazy
So beautiful I had to stare
And I knew you had the power to change me
Scarlet woman, you've come for me
Your timing's great, 'cause I've been
Waiting so long
The only thing I want to say
Now that you've got me, please-
Don't change my life

You know I love you but I hate your friends
They got dollars but they ain't got sense
If the time comes and you go away
I hope I've changed and yet stayed the same
Scarlet woman you've come to me
Your timing's great 'cause I've been
Waiting so long
Only thing I want to say
Now that you've got me, please-
Don't change my life
