## Daryl Hall & John Oates, Don't Change

I turned around and you were standing there More than a little high More than a little crazy So beautiful I had to stare And I knew you had the power to change me Scarlet woman, you've come for me Your timing's great, 'cause I've been Waiting so long The only thing I want to say Now that you've got me, please-Don't change my life

You know I love you but I hate your friends
They got dollars but they ain't got sense
If the time comes and you go away
I hope I've changed and yet stayed the same
Scarlet woman you've come to me
Your timing's great 'cause I've been
Waiting so long
Only thing I want to say
Now that you've got me, pleaseDon't change my life
