

Daryl Hall & John Oates, Going Through The Mot

Go-go go go-go motions, go-go go-go go go motions
Go-go-go-go go go-go mo-go-go-go go go-go mo
Go-go-go-go go go-go go go-go-go-go go go go mo-mo motions-go

Automatic action, follow my reflection, I see myself in watching you
Lock into a vision, rising through the rhythm
Trance until the dance is through
Don't let emotion go the flow is all we know
Baby we're doing it, doing it all the way
Step into the night, move into the light

Lately we're going through the motions (doing it)
Lately we're going through the motions (doing it, doing it)
Lately we're going through the motions (doing it)
Lately we're going through the motions (going through the motions)

How can we improve it, ooh you match my movement
Cryptic choreography
Jump up come down together, no one does it better
Electric eccentricity
No, I don't wanna know how far we're gonna go
Baby we're doing it, doing it all the way
Take a step into the night, move into the light

Lately we're going through the motions (doing it)
Lately we're going through the motions (doing it, doing it)
Lately we're going through the motions (doing it)
Lately we're going through the motions (going through the motions)

All right! Ow! Woo!
Da-da-da, da-da-da, da-da-da, da-da-da, da-da-da, da-da-da, da-da-da
