

# Daryl Hall & John Oates, Life's Too Short

In the heart of the country  
There's a killer without a gun  
We're afraid to be no longer free  
To trust and love in one  
So I gotta say  
Say a prayer for you

In the heart of the darkness  
There's a killer without a name  
Nowhere to hide, no mountainside  
Cities all the same  
So please oh, please  
Say a prayer , prayer for me

(Chorus)  
Out of the dark and silence  
How in the world will we survive  
Love in a dangerous time  
Out of the fear and madness  
How in the world will we survive  
Love in a Dangerous Time

In The heart of the children  
Where the simple things are true  
So much to learn  
When the world is turned  
Turning in on you  
Open eyes  
Show us what to do  
What to do  
-Repeat chorus-

Fight our way through open doors  
Blind to what we see before us  
Fools who make the rules  
Commit the crimes  
That lay it on the line
