

Daryl Hall & John Oates, Out Of The Blue

You said you never loved me, it was all a lie
Don't you know spite is a weakling's emotion
You said you didn't know, but you didn't try
And when you gave up it killed my devotion
Told me you ran around
Needed your fun

That's over, water under the bridge

Long gone

Chorus:

Then you call Out of the Blue

Like I still care about you

Out of the Blue

Like I can't live without you

Out of the Blue

Who do you think you're talking to

Why didn't you just throw away my number

When we were through

Do you need someone to talk to, like a long lost friend

Sympathy just ain't in my emotion

Yeah, you had a lot of rope but you reached the end

And when it ran out, it killed my devotion

I can see the bridges burning

But you just walk on

Our love is water under that bridge

Long gone

Chorus:

Then you call Out of the Blue

Like I still care about you

Out of the Blue

Like I can't live without you

Out of the Blue

Who do you think you're talking to

Why didn't you just throw away my number

When we were through

I can see the bridges burning

But you just walk on

Our love is water under that bridge

Long gone

Chorus: (repeat)
