Daryl Hall, Something About You

Yeah you've been so close, oh baby

in my world always gone with someeone

Seeing you on your own

It's like some light, so bright is turning on

See you standing there oh baby

Feel a change in the air

Everywhere

Why didn't I know

That you're the one that I've been waiting for

Yeah, there's something about you

That I never knew

Why didn't I see your smile before

Yeah, there's something about you

That's leaving me breathless

Leading me on

You can see, I can tell oh baby

You've got some power over me

Use it well

Don't know why I'm so sure

That you're the love that I've been longing for

Yeah, there's something about you

That I never knew

Why didn't I see your smile before

Yeah, there's something about you

That's leaving me breathless

Turning me on

Only matters what I feel right now

No matter what I've felt before

I'm turning to you right now
I'm breathless baby, that's all I need to know

Yeah, there's something about you Something about you
