

Dave Dudley, Back In Circulation

Got my heart patched up my goodnight sleep and my dancin' slippers on
I'm diggin' up where I left off when lovin' you went wrong
You'll notice I'm all smiles again and out of hibernation
Gonna hit those moonlit lanes again I'm back in circulation
Don't play the blues for me I want the sunny side of life
Tell all the gang to meet me here we're gonna swing the night
Hunt for everything that's wet and start the celebration
Gonna have myself a ball tonight I'm back in circulation

[guitar]

Put my cryin' towel away sunshine just peeped through the clouds
Gettin' out my little black book checkin' upon my ole crowd
Tell Mr Moon to shine tonight and make this observation
I just bounced back from being hurt and I'm back in circulation
Don't play the blues for me...
