

Dave Dudley, Big Ole House

(Big ole house around me)

Hey big ole house around me I hear you cryin' I know how you feel I'm cryin' too

She's gone for good but we will stay together

Hey big ole house around me now it's me and you

Someday maybe we will find another and she will love us twice as much

And again the time will come when we'll be happy so let's pretend that is three of us

Hey big ole house around me there's no sense lyin'

We'll miss her and we don't want someone new

So let's just wait cause she may change her mind

Hey big ole house around me that's what we will do

Hey big ole house around me that's what we will do
