

# Dave Dudley, But I Forget You Know Me Pretty Well

What makes you think I'm just a weakly that I'll take you back from now until  
You know I think that's kinda funny but I forget you know me pretty well  
What do you mean you think I want you that I still need you you can tell  
After the way you dropped it on me but I forget you know me pretty well  
You told me to go that there was no more you called me your stuff so I call your bluff  
Then you went to him now you're back again  
And you think I'll go back out there on that lamb what do you think I am  
Tell me that I'll go right back through your mill  
You know I gotta hand it to you cause I forget you know me pretty well  
You told me to go...  
Cause I forget you know me pretty well  
It's in my mind you know me pretty well yeah I forget you know me pretty well
