

# Dave Dudley, Coffee Coffee Coffee

Some men drink alcohol some men drink juices from the vine  
But as for me I'm very simple give me coffee every time  
Make it warm and make it sweet just the way my life has been  
Give me coffee coffee coffee coffee coffee  
And let me tell you you have found yourself a friend  
Cincinnati early in the morning I'm waitin' on an old Greyhound  
All make in Georgia right around a new town I bring that coffee for a round  
Make it hot make it now put a little cream and sugar in  
Give me coffee coffee coffee coffee coffee  
And you have absolutely found yourself a friend  
A cup of china a silver spoon cream out ever golden can  
See that pot ah it's a pretty little and it's just like a music from a band  
These old bones are tired and weary the man you can put and love again  
Give me coffee coffee coffee coffee coffee  
I guarantee that you have found yourself a friend  
Yes sir you have found yourself a friend  
I guarantee that you have found yourself a friend
