

Dave Dudley, Coffee Coffee Coffee

Some men drink alcohol some men drink juices from the vine
But as for me I'm very simple give me coffee every time
Make it warm and make it sweet just the way my life has been
Give me coffee coffee coffee coffee coffee
And let me tell you you have found yourself a friend
Cincinnati early in the morning I'm waitin' on an old Greyhound
All make in Georgia right around a new town I bring that coffee for a round
Make it hot make it now put a little cream and sugar in
Give me coffee coffee coffee coffee coffee
And you have absolutely found yourself a friend
A cup of china a silver spoon cream out ever golden can
See that pot ah it's a pretty little and it's just like a music from a band
These old bones are tired and weary the man you can put and love again
Give me coffee coffee coffee coffee coffee
I guarantee that you have found yourself a friend
Yes sir you have found yourself a friend
I guarantee that you have found yourself a friend
