

Dave Dudley, How Does It Feel

By now you know he let you go how does it feel
Did he hurt you like you hurt me does it seem real
I bet he told you lots of things but never ever mentioned rings
By now you know he let you go how does it feel
You said to me just go away that you and I were through
So I did I found someone and now I don't need you
By now you see that nothing's free how does it feel
And by now you know how a heart can hurt how does it feel
Don't come crying back to me your tears I can no longer see
By now you know he let you go how does it feel
By now you know he let you go how does it feel
