

Dave Dudley, I Almost Didn't Make It Through The

Early morning clear my head I can't remember what we said
All that I remember is the pain
Your actions made your feelings know the feeling that you had was gone
No use to try to build in all again
Funny when you think about it love comes unseen
But Lord you sure can see it go
I watch it leave with me behind then I've thought I heard you cry
And I almost didn't make it through the door
[piano]
Mem'rie's blowing through my soul leave me feeling cold and hollowed
Something that I've never known before
But I gathered up my tears and pain turned to say goodbye and then
I almost didn't make it through the door
Funny when you think about it...
