

# Dave Dudley, I Hope My Kind Of Love Didn't Break

Don't let my leaving make you cry too hard  
I know the things I said caught you off your guard  
I never wanted all of you just one little part  
I hope my kind of love didn't break your heart  
Well there you went and said it that we're in love again  
It doesn't matter I would be just like I've always been  
You opened up your love for me that's how these things all start  
I hope my kind of love didn't break your heart  
I didn't try but I know you tried to make it work  
But the only thing I've really done was to make you hurt  
I'm through talkin' it's time for walkin' don't let your teardrops start  
I hope my kind of love didn't break your heart  
Oh I hope my kind of love didn't break your heart
