

Dave Dudley, I Turned Her Every Way But On

My baby's gone I know she won't be back so I don't stand so weary I told her that
I've thought I had it made but I was wrong I guess I turned her every way but on
I've known all kinds that haven't meant a thing

I've made 'em loved 'em then left without a ring

The one that turned me on just turned me down I guess I turned her every way but on
Of all the broken hearts I've left behind

I've never thought that I'd be the next in line

The one that turned me on just turned me down I guess I turned her every way but on
[guitar]

Of all the broken hearts I've left behind...

I guess I turned her every way but on
