

Dave Dudley, I Won't Go Down That Road

Well I'm through hurt and startin' today and here's something I'd like to say
I know you'll be shocked and surprised but I wish you try this song for size
I won't go down that road anymore I won't go down that road anymore
You've had all of me you're gonna get and you ain't had the best of me yet
When you want me I'll be hard to find and I'll leave you with this thought in my mind
I won't go down that road anymore I won't go down that road anymore
Some things just have to be done and I guess my leaving is won
I wish there was other way but I only have one thing to say
I won't go down that road anymore I won't go down that road anymore
[dobro]
It's over I'm making my move got my rags in my bag and I'll prove
I'm gone like a big mocking bird make sure you'll remember my words
I won't go down that road anymore I won't go down that road anymore
I won't go down that road anymore I won't go down that road anymore
