

Dave Dudley, One More Mile

One more mile one more detour that's the way goes tears and smiles
I may miss you and I may wish that I have stayed but I'll be movin' it one more mile
And then one more I gotta keep moving I was born a traveling child
It's my way and it's the nature of my mind I gotta keep doggin' it one more mile

Storms won't stop me wind won't do it a little rough ride that fits my style
When the sun sets in the window of your world I'll be draggin' it one more mile
And then one more I gotta keep moving...

(One more mile)

One more mile one more detour...
